Experience

○ **Nov 2021 - June 2022**
ArrayPointer

Software Developer

At ArrayPointer, I developed 2 websites for the firm using WordPress. I was lucky to be a part of a fantastic team working on the development of a Hybrid Mobile Application (Android/iOS), also gained hands-on experience in the same. The perks of working at ArrayPointer were that it being a start-up, I got to learn business-oriented concepts. My superiors encouraged me to question everything that we did. This resulted in me gaining an all-around business development knowledge and not just being another labourer in the IT industry.

Professional Experience:
1) Good knowledge of modern progressive mobile/web applications.
2) Experience in creating front-end UI components with Ionic, Angular and other JavaScript platforms.
3) Considerable experience in using in-house and third-party APIs to access the mobile capacities in the Hybrid Mobile/Web application development.

○ **Aug 2021 - Oct 2021**
MES COPA, Pune

Digital Marketing and Web Development Intern

Looked after the Digital Marketing of the Institute amid their ongoing admission process. Coordinated with Graphic Designer and Content writer to ensure quality marketing. Developed College Website and Search Engine optimized it.

○ **May 2021 - June 2021**
MES GCC, Pune

Web Developer

Designed and implemented website from initial concept, site architecture, and wireframes to finished deliverables.

Certifications

IBM IT Fundamentals for Cybersecurity	**Angular Developer**
Cicso Certified Network Associate	**Node.js Develpor**
